

I find the recent push as part of your "Localism" campaign to give priority to LPFM over current FM services. My family listens to the national broadcast of K-LOVE radio on a daily basis, and this movement to LPFM would greatly hinder that important aspect of our lives. K-LOVE provides radio that I as a father feel comfortable allowing my whole family to listen to. While K-LOVE does not shy away from its Christian focus, it is one of few stations current on the airwaves that 5-year olds can listen to without being exposed to words/settings that they are not ready for. Removing K-LOVE would damage the church family, and speaking for my family and fellow community of Norman, OK, I politely request you reconsider your Localism agenda as it pertains to LPFM priority over current FM broadcasts. Thank you.
